Poetry in Motion

Walking down my route to school
Passing the library and the pool
Seeing my friends, chatting away
I'm so glad I walked today!

Biking with my friends to school
It's so fun and really cool
Keeping fit, pedalling fast
Arrive on time – don't be last!

If you're travelling by car,
Whether it be near or far,
Do the thing that shows you care,
Fill those seats up and car share!

I just love to take the bus
No parking, no jams, no such fuss!
With my friends I sit and chat
Nice and dry while the rain goes splat!

Get to school the active way
Walking or cycling every day
Fewer cars to spoil our earth
Join the movement, show your worth!

Crossing the road needs your care
Bright, light colours are what to wear
Stop, look and listen, take your time
Follow the rules and you'll be fine!

Ride your bike the safer way
Applying the Code every day
Maintain your bike, a good helmet to wear
Reflective strips to help you take care

Schools GoSmarter

Can you write a new last line?
And then also make it rhyme?

Walking down my route to school
Passing the library and the pool
Seeing my friends, chatting away

....

Biking with my friends to school
It's so fun and really cool
Keeping fit, pedalling fast

....

If you're travelling by car,
